LIEBHERR

Contents

Global success:
The Liebherr Group

Liebherr is a third-generation, family-owned company founded in 1949 by Hans Liebherr with his ground-breaking invention of the world's first mobile tower crane.

With over 70 years of success, Liebherr is known as a pioneer in high-quality, breakthrough innovations and countless cutting-edge technologies in numerous industries. One of the world's largest manufacturers of construction machinery, Liebherr has expanded its broadly diversified portfolio to 13 product segments including earthmoving, deep foundation machines, mobile and crawler cranes, tower cranes, concrete technology, material handling technology, mining, maritime cranes, aerospace and transportation systems, gear technology and automation systems, components, hotel, and refrigeration and freezing. The company currently employs about 48,000 people in more than 140 companies in over 50 countries worldwide.

Refrigeration and freezing

Liebherr-Hausgeräte GmbH, Germany

Liebherr-Hausgeräte – specialists in refrigeration and freezing

Liebherr-Hausgeräte covers the full range of refrigeration and freezing for domestic and commercial use. Headquartered in Germany, Liebherr-Hausgeräte has an impressive range of more than 3,000 products in its portfolio.

Even the smallest detail deserves the utmost attention.

We prioritise uncompromising quality – down to the tiniest screw. And we have done so from the very start. We have been manufacturing high-quality refrigerators and freezers and selling them worldwide since 1954. However, at heart we are still a family business with deep roots in Germany. It is here that we continue to develop all our products just as before. German engineering – out of loyalty to our founder and with the knowledge built up by generations of engineers.

Built to last

You can experience our quality standards in the smallest of details. For example, before a door hinge is approved by us, it must pass through at least 100,000 opening cycles. This corresponds to a usage period of more than 15 years. We also test all other functional parts to ensure that they can last just as long.

And if, contrary to expectations, a small detail no longer meets your requirements, you or our premium service partners can usually correct it quickly. Because all our appliances are extremely repair-friendly. We keep all essential spare parts in stock for well over 10 years. This practice is not just sustainable, it also saves you money on minor repairs or the purchase of a new appliance.

G German Engineering

EasyFresh for fruit and vegetables from the Pure series upwards.

SBSbs 8673

Magnetic door gasket ensures safe closing.
*subject to model

We don't just say it. We also guarantee it.

During manufacturing we inspect all components of our refrigerators with great care and test them far more rigorously than required by law – and we do this for the last time just before they are packaged. It is only then that our appliances can relax a little. All of our manufacturing sites are certified in accordance with the international standards for quality ISO 9001, energy management ISO 50001 and environmental management ISO 14001. Therefore, nothing could be easier for us than to guarantee for at least two years that our products are free of material and manufacturing faults and are particularly easy to install.

In short: one thing is certain – you will be able to enjoy your Liebherr for a long time.

Uncompromising freshness

You don't compromise when you're shopping. You look for natural ingredients, the best quality and maximum freshness. Of course, anyone who values good food wants to keep it fresh for as long as possible. That is precisely why we have developed innovative freshness technologies and improve them year after year, so your food still tastes fresh after some time in the refrigerator.

EasyFresh – ideal for fruit and vegetables
Unpackaged fruit and vegetables feel right at home here. Stored at the same temperature as the fridge compartment and sealed airtight in the safe, lettuce, for example, is still crisp and fresh after 7 days.

BioFresh – our all-rounder
The reliable BioFresh technology stores groceries at a temperature just above 0 °C, much cooler than in the rest of the appliance. With the perfect humidity, fruit and vegetables stay fresh even longer in the airtight Fruit & Vegetable safe. Meat, fish and dairy products can enjoy ideal conditions in the Meat & Dairy safe.

BioFresh Professional with HydroBreeze
A cold mist that covers fruit and vegetables like a protective balm. It ensures crisp freshness and improves structure – the special wow effect for fruit and vegetables in the BioFresh Professional safe.

BioFresh Professional with Fish & Seafood safe.
Particularly delicate foods like fish and seafood are best stored in icy temperatures and at low humidity. The constant temperature of –2 °C in the Fish & Seafood safe is therefore ideal to keep these items tasting fresh for longer.

DuoCooling – no drying out
The two completely separate refrigeration circuits ensure that there is no air exchange between the fridge and freezer compartments. Groceries do not dry out nor spread odour.

NoFrost – no more defrosting
The automatic defrosting function guarantees that frozen foods remain fresh. There is no longer a need to store frozen food temporarily during manual defrosting. The constant optimal freezing remains the same without interruptions.

Cool and misty. Perfect weather for your vegetables.

Our HydroBreeze feature exemplifies our highest standard of freshness. A cold mist covers fruit and vegetables like a protective balm in the BioFresh Professional safe. The mist ensures crisp freshness, improves structure and keeps produce with fine leaves fresh for longer. It also creates an optical wow effect in the BioFresh Professional safe.

Nature's freshness secret

The Salinas valley in California is known as the salad bowl of the USA. And that is because of the particularly favourable climatic conditions. Its proximity to the cool waters of the Pacific means a fine, moist mist covers the valley and its fields in summer. This prevents the crops growing here from drying out. It is precisely this idea which inspired our BioFresh Professional with HydroBreeze.

Every time the door is opened, a fresh, cold mist is generated.

Relish the freshness of the sea.

To keep fish and seafood tasting as fresh as at the market stall, even after a few days, you need a fridge compartment which maintains their freshness; such as our Fish & Seafood safe. Fish and seafood can be stored here at –2 °C and low humidity. Perfect conditions to enjoy that freshly caught flavour for much longer.

Flexible use

The surface of the BioFresh Professional safe can be adjusted to individual requirements. The −2 °C can be partially or even completely adjusted to a temperature zone at just above 0 °C. This is the optimal storage environment for meat and dairy products. We have illustrated these four options below:

−2 °C

−2 °C | **0 °C**

−2 °C | **0 °C**

0 °C
Convenience and flexibility

Drawers on telescopic rails
Pleasantly easy opening and closing – even when fully loaded – ensures that all of the groceries are perfectly accessible.

FlexSystem
Ensures clear order in the BioFresh safe. It is perfect for storing smaller portions of fruit and vegetables or sensitive groceries.

VarioSafe
Allows you to arrange smaller items clearly in the interior – at whatever height you prefer.

Thinking beyond just today

We are fastidious in adopting a holistic approach to sustainability when designing our appliances. The key elements of this are the durability of our appliances, maximum energy efficiency and reducing food waste. Why do we do all this? Because a holistic approach is needed to protect both people and the environment in equal measure.

Reducing food waste

Everyone who stores food in the optimum climate plays a big part in reducing unnecessary food waste. Our appliances make this possible – with a combination of innovative features:

First: Our freshness technologies. DuoCooling in our fridge-freezers, for example, prevents your groceries from drying out faster than need be. Innovative freshness technologies such as BioFresh ensure perfect storage conditions that significantly extend product life and freshness. So there's no need to throw food away before its time, and you don't need to go shopping so often. And the largest zero-degree compartments on the market provide enough space for extra-large amounts of groceries.

Second: Our SmartDevice app also helps you to store your food properly, giving your food a longer shelf life so you can enjoy it for even longer.

Third: Our appliances are intelligent and let you know if perfect storage for your groceries is at risk. For example, by using a door alarm to tell you if the appliance door is still open.

Perfectly thought out: a powerful, complete package

Our fridges are real all-rounders. Along with their low power consumption, they also have impressively low noise levels, plenty of space for groceries, a long service life and reliable power reserves for when it really matters. We take account of a great many factors during the development stage and can offer a perfectly balanced appliance. Or to put it another way: all good things come in fours.

Energy consumption

Our refrigerators and freezers occupy top positions in the efficiency rankings. In this way, they protect the precious resources of our environment and – thanks to low electricity costs – your wallet too.

Cooling volume

We have the perfect appliance for all family sizes, lifestyles and niche heights. We make sure that we do not waste a single litre of capacity in the extra-large drawers – right down to the smallest detail, for example with the lighting solutions that have been integrated in the housing to save space.

Noise level

The boundaries between the kitchen and living areas are becoming ever more blurred in modern households. This underlines the importance of particularly quiet appliances. Our range of refrigerators and freezers therefore offers a wide selection of extremely quiet appliances. In some cases, it even reaches the ultra-quiet noise level of 32 db.

Cooling performance

Intelligent sensor technology constantly adapts the cooling performance to current use, making our refrigerators and freezers very energy-efficient and economical in everyday use. At the same time they also have plenty of power in reserve, for example to cool down a large quantity of groceries after the weekly shop.

BioFresh   0°C

Bio
Fresh

BioFresh-Safe

Fresh-Safe

Unique features.

IceMaker

Are there any ice cubes left? An IceMaker means you never have to ask. With the IceMaker with fixed water connection, the water comes directly from the tap. The MaxIce function allows you to produce up to 1.5 kg of ice cubes a day. The ice cube separator helps to divide the drawer into any size you want – for example, ice cubes on the left, ice cream on the right – or just for ice cubes.

SoftSystem

From breakfast to a midnight snack – a fridge needs to be open and closed on many occasions. And your Liebherr makes this is a lot of fun. With the SoftSystem, your fridge door closes softly and safely, and in a way which is pleasantly quiet and light. Bottles stored in the inside door remain securely in place – nothing rattles or wobbles.

BioFresh

BioFresh provides the perfect climate for long-lasting food storage. When stored at just over 0 °C and at the ideal humidity level, fruit, vegetables, meat and fish all retain their nutritious vitamins for longe.

SmartSteel

A specially treated stainless steel finish that significantly reduces the visibility of fingerprints, making it very easy to clean. Maintain this beautiful surface simply by wiping it with a soft, damp cloth.

Touch-Display

The elegant MagicEye control system with the innovative, user-friendly Touch-electronic feature ensures that the temperature in the fridge compartment and freezer compartment is kept to the selected temperature. All the functions can be simply and conveniently operated at the touch of a finger.

PowerCooling system

Do you want to be sure that the cold is distributed as evenly as possible in your refrigerator? If so, the PowerCooling system is what you need. The fan – as powerful as it is quiet – distributes the cold air efficiently throughout the entire refrigeration compartment.

The features shown are model specific; the description applies to the relevant model.

Bio Fresh Plus	No Frost	Ice Maker	Wine	Soft System	Soft-Telescopic	Smart Steel

SBSes 8486

Masterpiece in Innovative Freshness Technology.

Timelessly elegant with a full stainless steel body, our award-winning BluPerformance SBSes 8486 Side-by-Side Fridge-Freezer with six different climate zones boasts an array of innovative solutions.

The dual-zone wine compartment allows you to store two different types of wine at their respective desired temperatures, ranging from +5 °C to +20 °C. The NoFrost freezer with automatic IceMaker provides professional freezing technology for long-term freshness while a spacious refrigerator provides an extended shelf life for fresh groceries.

The BioFresh-Plus compartment includes a versatile Fish & Seafood safe and offers an adjustable temperature range of 0 °C and −2 °C to provide even more storage flexibility for a wide array of meat and produce.

GERMAN DESIGN AWARD WINNER 2019
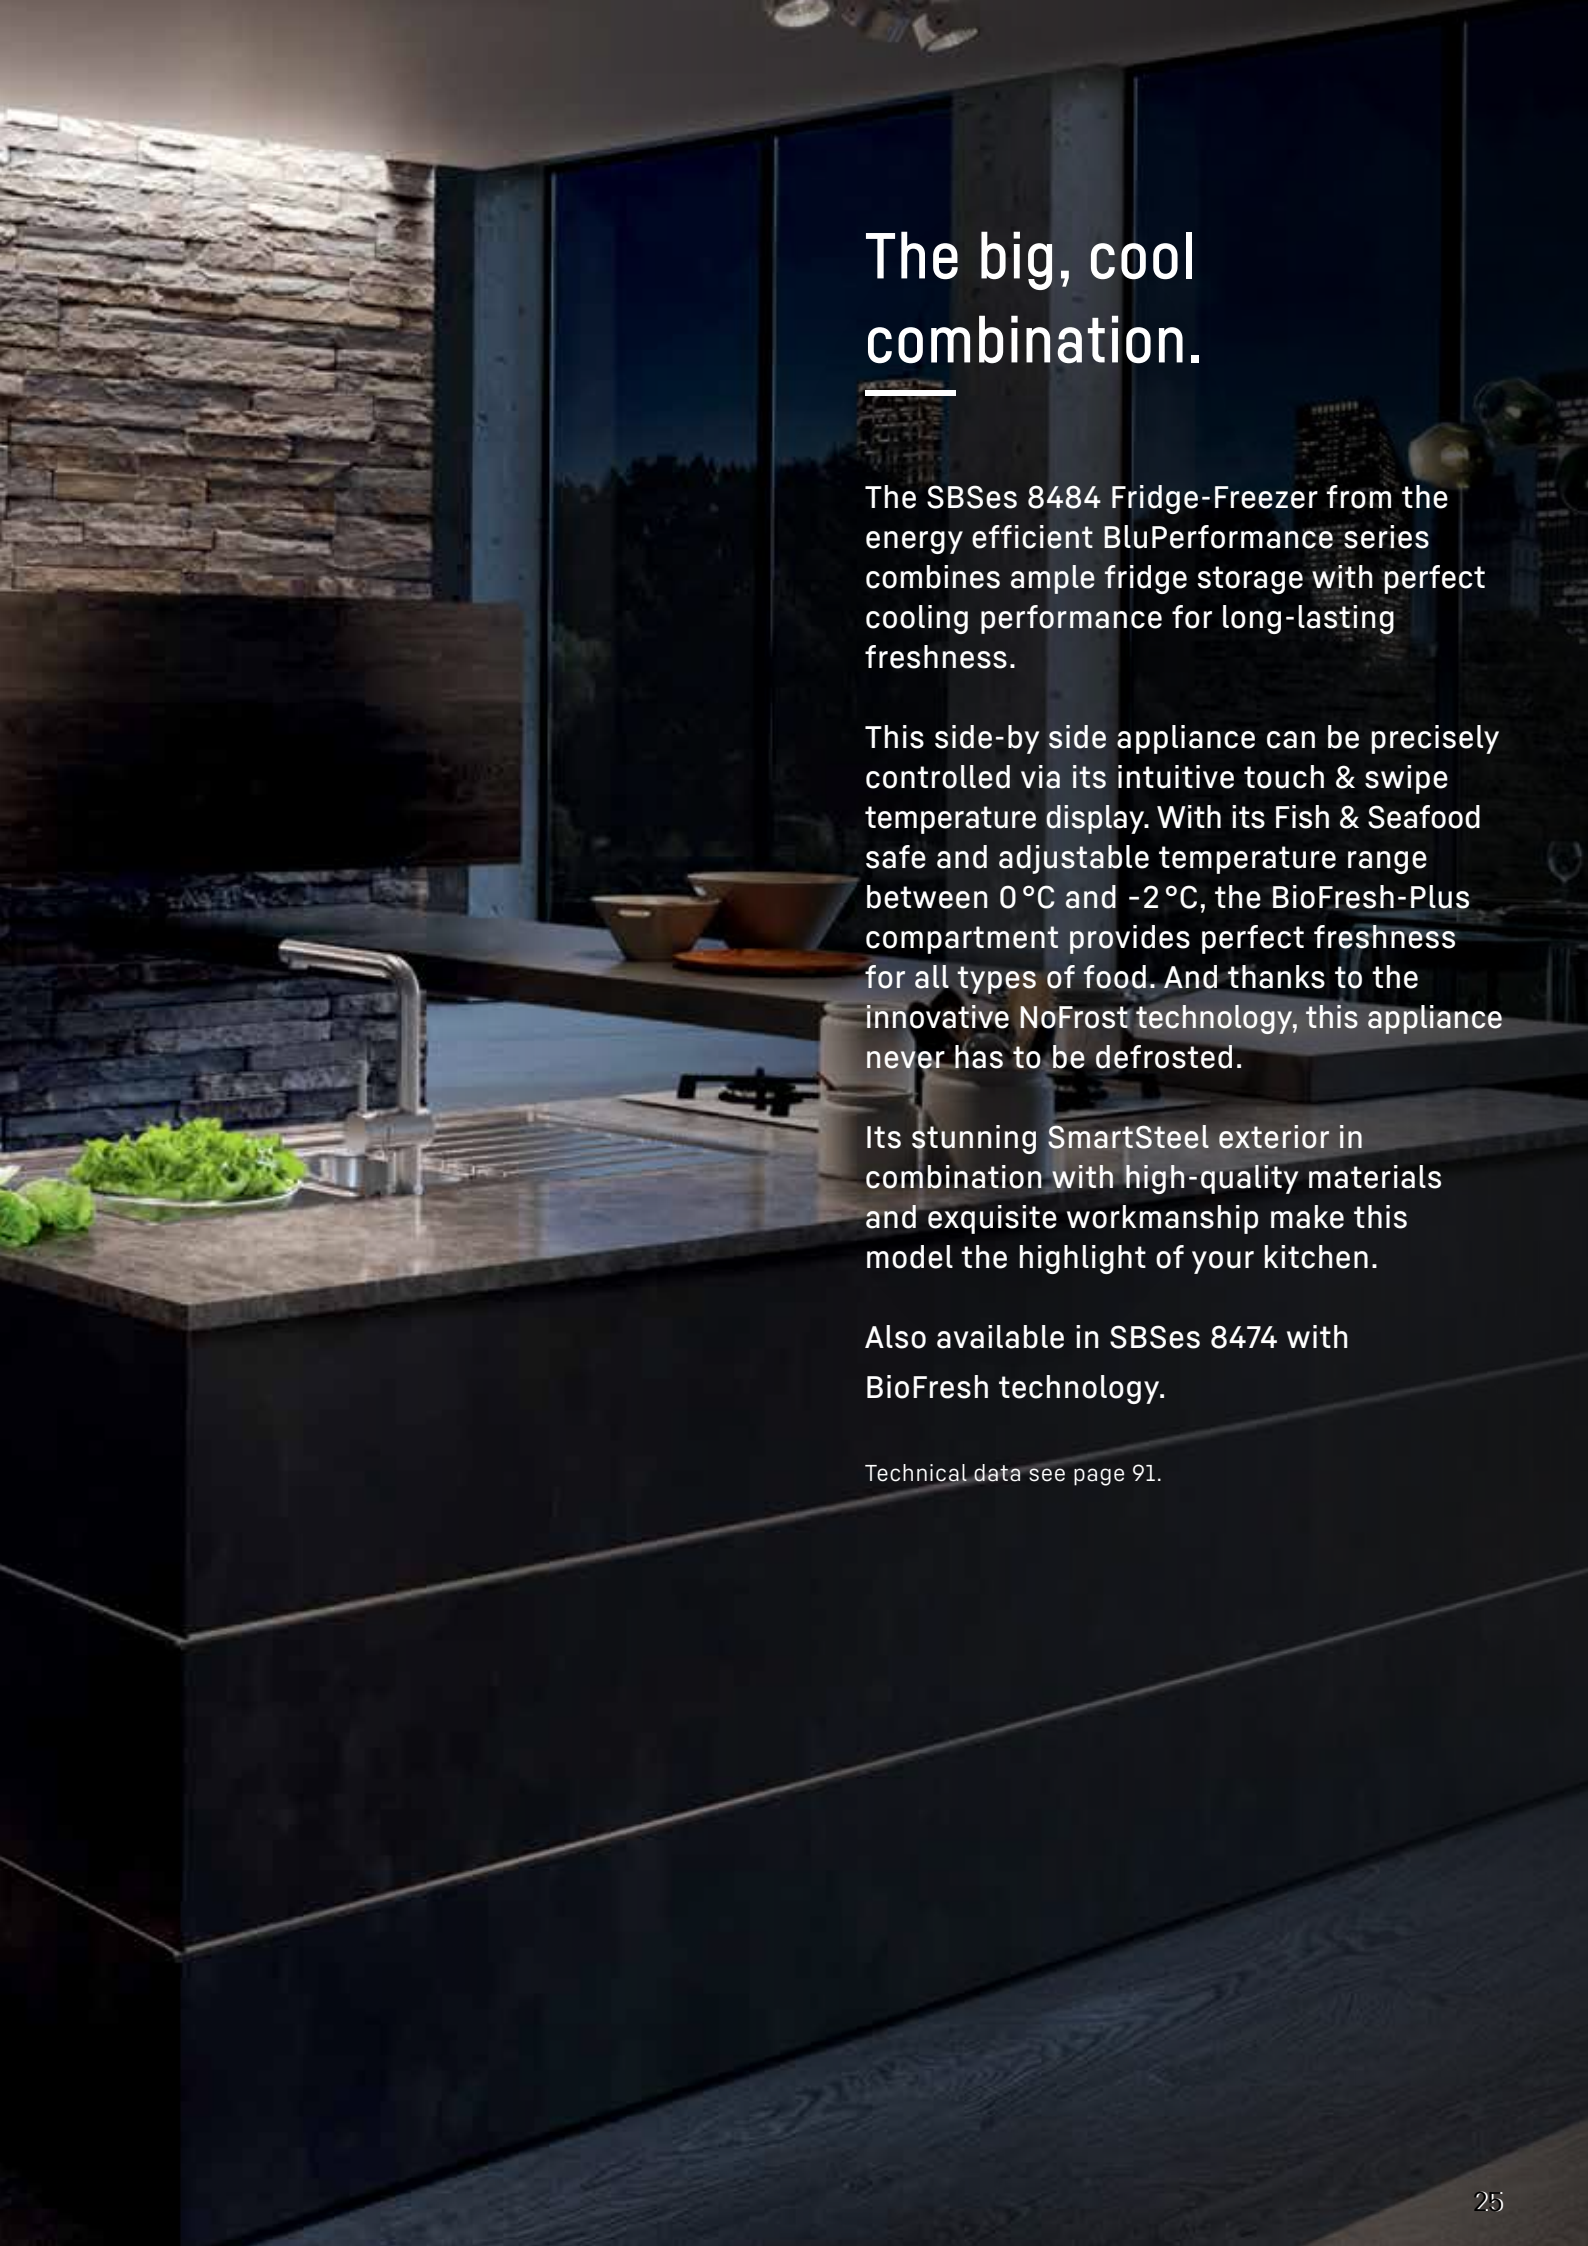

Bio Fresh Plus	No Frost	Ice Maker	Soft System	Soft-Telescopic	Smart Steel

SBSes 8484

The big, cool combination.

The SBSes 8484 Fridge-Freezer from the energy efficient BluPerformance series combines ample fridge storage with perfect cooling performance for long-lasting freshness.

This side-by side appliance can be precisely controlled via its intuitive touch & swipe temperature display. With its Fish & Seafood safe and adjustable temperature range between 0 °C and -2 °C, the BioFresh-Plus compartment provides perfect freshness for all types of food. And thanks to the innovative NoFrost technology, this appliance never has to be defrosted.

Its stunning SmartSteel exterior in combination with high-quality materials and exquisite workmanship make this model the highlight of your kitchen.

Also available in SBSes 8474 with BioFresh technology.

Bio Fresh Plus	No Frost	Ice Maker	Soft System	Soft-Telescopic	Smart Steel

SBSes 8683

It doesn't get any fresher.

Fall in love with the BluPerformance SBSes 8683, Liebherr's range of energy-efficient fridge-freezers. Its stainless steel body and BioFresh-Plus technology strike the perfect balance between timeless beauty and keeping food fresh.

The right temperature and ideal humidity conditions are essential for the optimum storage of fruits, vegetables, dairy, and meat. With an adjustable temperature range between 0 °C and -2 °C, BioFresh-Plus ensures that your groceries retain their delicious freshness and nutrients for much longer. Keep your seafood in the versatile Fish & Seafood safe to preserve the delicate flavours for an extended period of time!

As with all Liebherr's freestanding BluPerformance models, you can choose to flush this appliance with your kitchen cabinetry for a clean, seamless look.

Bio Fresh	No Frost	Ice Maker	Soft System	Soft-Telescopic	Smart Steel

SBSbs 8673

An optical highlight in BlackSteel.

Elevate your living space with the SBSbs 8673 BlackSteel masterpiece. The black transverse-polished finish lends a premium appeal and exceptional textural depth to the fridge-freezer to give this striking model a luxurious, exclusive appearance.

Get your daily dose of freshness with Liebherr's patented BioFresh technology which allows each drawer to be adjusted individually to provide the ideal humidity for different types of food. Our IceMaker ensures that you stay refreshed in the heat.

This energy-efficient BluPerformance model is also available in stainless steel as SBSes 8673.

Technical data see page 93.

XCCsdh 5250

Ultimate flexible storage with VarioTemp.

Our 'Prime' side by side XCCsdh 5250 is a combination of two x 6 star energy rated bottom mount fridge-freezers. It comes complete with traditional features such as SuperCool, SuperFrost and a NoFrost freezer. Plus, an exciting new feature VarioTemp, which allows the freezer (on either side) to be converted to a fridge if more refrigerator space is required.

It also comes complete with a Touch and Swipe LCD display, an EasyFresh bin on telescopic rails and DuoCooling. With Duo-Cooling, two separately controlled cooling circuits allow you to set and maintain the temperature in the refrigerator and freezer compartments accurately and independently. It also allows no exchange of air between the refrigerator and freezer compartments, stopping food from drying out.

| Easy Fresh | No Frost | Vario Temp | Soft System | Smart Steel |

XRFsdh 5220

Freshness with style and elegance.

The XRFsdh 5220 'Plus' Side-by-Side Fridge-Freezer brings together high-quality components and meticulous workmanship to guarantee food freshness and user-friendliness.

With seven drawers the freezer includes our new SpaceBox drawer, to accommodate the 'big stuff', with a generous 250mm height. The EasyFresh and crisper drawers in the refrigerator provide a clear view of the stored food and slide out effortlessly on running rails.

Plus, the stainless doors with special SmartSteel coating makes this appliance easier to clean.

Easy Fresh	No Frost	Easy Twist Ice	Space Box	Smart Steel

CNPef 4516

Practicality
and elegance for
your kitchen.

The CNPef 4516 Bottom-mount Freezer
is the practical and elegant solution
for small footprint installations such
as studio apartments.

Thanks to VarioSpace, the drawers and
safety glass shelves can be removed to
conveniently create extra storage space
for larger frozen goods.

Independent temperature control of
the fridge and freezer compartments is
facilitated by DuoCooling, two separately
adjustable cooling circuits to prevent air
exchange between the two compartments.
This eliminates odour transfers and
prevents food from drying out.

For larger households, double your food
storage capacity by installing two units
together.

No Frost	Duo Cooling	Smart Steel	Vario Space

CNPef 4416

Smart design for smaller footprints.

The compact fridge-freezer combination CNPef 4416 is the perfect choice for smaller footprint installations like galley kitchens or apartment living. It includes smart interior design features like a beverage rack, foldable glass shelf, and a stainless back wall which prevents ice build-up and dripping.

The SmartSteel door is scratch resistant and makes fingerprints virtually disappear – one wipe of a cloth is all it takes to keep the surface clean. The CNPef 4416 can be paired with itself with the help of our optional side by side kit for even more fridge and freezer space.

Technical data see page 96.

Professional

Unique features

PowerCooling

Do you want to be sure that the cold is distributed as evenly as possible in your refrigerator? If so, the PowerCooling system is what you need. The fan – as powerful as it is quiet – distributes the cold air efficiently throughout the entire refrigeration compartment.

LightTower

Enjoy an optimally illuminated interior: the LightTower shows off the food in its best light and is positioned so that all of your filled fridge is illuminated at all times. The flush mounting of the LightTower in the side walls means there is also more space for your food.

Touch & Swipe Display

Control of your Liebherr at your fingertips: thanks to the Touch & Swipe display, you can operate your refrigerator intuitively and with ease. Simply select functions such as SuperCool on the colour display by tapping and swiping. The temperature is controlled just as easily. And, what if you are not actively using the display? Well, it then shows you the actual temperature.

Fish & Seafood safe

BioFresh Professional offers even more flexibility for the individual storage of food. The adjustable temperature range of 0 °C and –2 °C keeps fish and seafood fresh for significantly longer than in a conventional refrigeration compartment. The BioFresh Professional safe includes a versatile Fish & Seafood safe.

IceMaker

Are there any ice cubes left? An IceMaker means you never have to ask. With the IceMaker with fixed water connection, the water comes directly from the tap. The MaxIce function allows you to produce up to 1.5 kg of ice cubes a day. The ice cube separator helps to divide the drawer into any size you want – for example, ice cubes on the left, ice cream on the right – or just for ice cubes.

SuperSilent

Shhh – listen carefully. Your Liebherr is so quiet that you have to strain your ears to hear it. How is this achieved? All refrigeration components such as compressors, valves, fans and evaporators are optimised and perfectly adapted to one another. This means you only hear what you want to hear in your kitchen.

The features shown are model specific; the description applies to the relevant model.

43

SIFNh 5188 △ Peak series | EWTdf 3553 | IRBh 5170 △ Peak series

The ultimate indulgence

In the IRBh 5170 refrigerator, cold mist from HydroBreeze covers fruit and vegetable like a protective balm in the BioFresh Professional safe. Adjust the temperature down to –2 °C to create a low humidity environment for retaining the freshness of your catch of the day in the Fish & Seafood safe.

For parties and gatherings, IceTower in the SIFNh 5188 freezer produces up to 1.2 kg of ice cubes daily whereas VarioSpace provides added flexibility for large cakes.

The insulated triple glazed door of our EWTdf 3553 dual-zone wine cellar protects your finest collection from UV exposure. Handcrafted beechwood shelves on telescopic rails reduces vibrations, allowing wines to develop in peace.

Technical data see page 98, 99 & 110.

Unique features

LED lighting

The LED lighting in the individual wine compartments can be dimmed to give a pleasing ambient light inside the appliance. All Vinidor appliances are equipped with this innovative, no-heat LED lighting concept. The LED lighting can also be adjusted to operate continuously or in conjunction with door openings.

Insulated glass door

Liebherr wine cabinets come with insulated glass doors with special UV protection. The double-glazed construction means that most of the damaging UV radiation is reflected away. In addition, LED lighting guarantees perfect illumination of the wine cabinet interior without risk of UV exposure.

FreshAir activated charcoal filter

Environmental odours can have an wine stored for longer periods. Fresh air is supplied to Liebherr wine cabinets through the easily replaceable FreshAir activated charcoalfilter to ensure optimal air quality.

Handcrafted beechwood shelves

Our natural, handcrafted, and untreated beechwood shelves release no chemical aromas into the environment that could adversely influence the flavour of wine. In addition, wooden shelves contribute to the reduction of vibrations which allows wine to develop in peace.

Touch electronic control system

Our touch electronic control system is easy to navigate and enables tailored storage options. Temperature can be set between +5 °C and +20 °C based on your preference. In our multi-temperature models, each wine safe can be controlled independently, allowing different types of wine to be stored in one wine cabinet.

Compressor

Specially developed compressors installed in the wine cabinets from Liebherr ensure that the wines are stored in a particularly low vibration environment.

WTes 5872

Created for true wine connoisseurs

The WTes 5872 Multi-temperature Wine Cabinet satisfies your thirst for the smartest, most elegant ways to store wine. It adds sophisticated flair to entertainment areas while providing ideal conditions for wine to mature successfully. With three adjustable temperature zones, you can simultaneously store red wine, white wine, and champagne all at their optimum serving temperature between +5 °C and +20 °C.

An insulated glass door protects wines from damaging UV radiation while the presentation shelves allow the perfect display of your finest collection. Specially developed compressors provide a low vibration environment and telescopic rails help shelves to slide out gently without causing sudden movements that could damage your wine. An activated charcoal filter provides a permanent supply of odourless, fresh air.

Impress your guests with what is a true wine storage unit. Also available in two temperature zones as WTes 5972.

Technical data see page 108.

| Wine | 2 Zones | Humidity Select | Fresh Air | Soft System | Telescopic Rails | Presentation Shelf | LED |

WSbl 7731

Quality wines deserve quality storage

With the ability to store up to 324 bottles (750ml Bordeaux), our new WSbl 7731 single zone solid door wine cellar offers the largest storage capacity in the range.

HumidityControl allows you to adjust to your needs, creating the perfect climate conditions in conjunction with precision temperature. Plus, with the activated charcoal filter it reliably binds odours of all kinds, resulting in optimal air quality.

EasyFill is also a new feature, a loading aid which ensures that the door of your wine storage cabinet remains open from an angle of 90° – for particularly easy filling. And thanks to the SelfClosing mechanism, the door closes all by itself when opened less than 90° – always as gently as your valuable wines require.

EWTgb 3583

Integrated solution for all your favourites.

The advanced dual-zone EWTgb 3583 offers several innovative solutions for wine storage. Controls are integrated into the insulation layer between the temperature zones, making it possible to set two different temperatures within the unit. Store red and white wines according to your preference – use the entire cabinet for one or store both, each at its optimum drinking temperature.

Environmental odours can affect wines stored for longer periods. In the wine cabinets, perfect air quality is ensured through an easily replaceable FreshAir activated charcoal filter.

For integration into handleless kitchen furniture, the handleless, full-surface insulated glass door with innovative TipOpen technology is the perfect solution. The glass door opens a few centimetres when tapped. If the door is not opened further after 3 seconds, the SoftSystem closes it again.

winner

EWTdf 3553

Savour the difference with a Liebherr.

Like a shaken bottle of champagne, the EWTdf 3553 dual-zone wine cellar is absolutely exploding and overflowing with innovative features.

Its touch display controls are integrated into the insulation layer between the temperature zones, allowing you to set two different temperatures within the unit and simultaneously store red and white wines, each at its optimum drinking temperature. An insulated glass door protects your favourite collection from UV exposure while handcrafted beechwood shelves on telescopic rails reduces vibrations, allowing wines to develop in peace.

Seamlessly fit this built-in model into your customised kitchen décor or turn it into a stainless steel masterpiece with our selection of accessories.

UWTes 1672 | UWKes 1752

| Wine | Humidity Select | Fresh Air | Telescopic Rails | LED |

A cabinet full of treasures

The UWKes 1752 Undercounter Wine Cabinet is ideal for storing wines for extended periods, allowing them to mature to perfection. Its LED lighting ensures uniform illumination of the interior without any damages caused by UV light.

If you like reds, whites, as well as champagne, pair the UWKes 1752 with our dual-temperature zone model UWTes 1672. Now enjoy your favourite bottles all stored at their desired temperatures between +5 °C to +20 °C!

Unique features

LED lighting

The tinted glass door provides not only a perfect UV protection, but also an optimum glance at wine. The integrated LED lighting ensures a pleasant illumination of the complete interior.

Precision electronics

The precise electronic control system is equipped with a digital temperature display. The door and temperature alarm alerts of any irregularities, e.g. when the door is left open. The integrated lock on the front panel prevents unwanted access to the stored bottles.

Handcrafted beechwood shelves

Our natural, handcrafted, and untreated beechwood shelves release no chemical aromas into the environment that could adversely influence the flavour of wine. In addition, wooden shelves contribute to the reduction of vibrations which allows wine to develop in peace.

Presentation shelf

The presentation shelf, equipped with wooden angles, is ideal for presenting wine and storing open bottles safely. Up to 6 bottles can be set upright on the flexible shelf. In addition further bottles can be stored lying down either behind or at the side.
Optimum humidity

Liebherr wine cabinets guarantee an optimum humidity and this ensured the corks are supple in place whilst still allowing the wine to breathe in its maturing process.

Activated charcoal filter

The easy replaceable active charcoal filter purifies the incoming air to obtain an optimum odour-free interior.

The features shown are model specific; the description applies to the relevant model.

81

WKb 4612

Perfect display for all your favourites

With the capacity to hold 195 Bordeaux bottles, the spacious Liebherr Barrique WKb 4612 Wine Cabinet is ideal for the long-term storage and maturation of wines.

Constant temperature can be set as desired between +5 °C to +20 °C via the intuitive control system with digital temperature display.

Thanks to its coated glass door, wines will always be well-protected from UV radiation. Efficient LED lighting ensures that the interior is illuminated evenly and pleasantly, allowing you to proudly showcase your prized collection.

Also available in a shorter height as WKb 4112 with the capacity to store 168 Bordeaux bottles.

Wine	1 Zone	Humidity Select	Fresh Air	Telescopic Rails	Presentation Shelf	LED

Wine storage sophistication for your home

The WKb 4611 Wine Cabinet mimics the conditions of an underground wine cellar where its solid door creates a dark, undisturbed environment with zero exposure to UV light and heat fluctuations – perfect for maturing wines.

When humidity level falls below 50 %, natural corks begin to shrink, causing oxygen to enter the bottle and damage stored wines. With a humidity range between 50 % – 80 %, Liebherr wine cabinets guarantee the ideal conditions to preserve the suppleness of wine corks which in turn prevents oxidation.

Your wines are always stored safely on our untreated beech wood shelves while an activated charcoal filter provides optimal air quality.

| Wine | 1 Zone | Humidity Select | Fresh Air |

WKb 4611

WKgb 4113

The storage choice for wine aficionados
___

The Liebherr Barrique WKgb 4113 Wine Cabinet features an insulated full-glass, black door that provides protection from UV radiation and preserves the quality of wine.

Temperature can be adjusted between +5 °C to +20 °C and is ideal for the long-term storage of fine wines – be it for maturing or storage. Our integrated activated carbon filter absorbs odours from the ambient air and prevents the taste of fine wines from being impaired.

With its elegantly designed recessed handle, this wine cabinet looks perfect in any home or restaurant.

Technical data see page 113.

Wine	1 Zone	Humidity Select	Fresh Air	LED

Superb conditions for fine wines

Our most compact model from the Liebherr Barrique series, the WKb 1712 Wine Cabinet can store up to 60 Bordeaux bottles. Wines are stored optimally on three untreated, height-adjustable beech wood shelves.

Wines are well protected from UV radiation thanks to a tinted insulated glass door while the activated charcoal filter provides optimum air quality and is easy to replace.

Energy-efficient LED lighting ensures even and pleasant illumination so that your favourite bottles are seen in the best light.
